A Workshop on "C Programming"

A Workshop on **"C Programming"** was organized by Department of Computer Science and Engineering for the students of all departments. The workshop was conducted for 11 days and at the end of the workshop, there was surprised test arranged for the students.

This workshop covered all aspects of Programming with C. This teaches the design, writing and testing of C programs. The workshop was mainly focused on the following topics:

- The Basics Of C
- C Operators
- Control Structures
- Function
- Storing Variables
- Arrays
- Pointers
- Structures And Unions
- Preprocessor
- File Handling
- Data Structure

The students were told about Applications of C programming in their fields. The sessions were extremely interesting and beneficial for the students.
